

HEAT PROCESSOR INDUSTRIAL SERVICES

QUALITY ● RELIABILITY ● PERFORMANCE

ABOUT US

Welcome to Heat Processor Industrial Services, your trusted partner in providing top-notch industrial radiators, heat exchangers, coolers, diesel engines, and generators. With years of expertise in the industry, we pride ourselves on delivering innovative and reliable thermal management solutions to meet the diverse needs of our clients. Our commitment to excellence ensures that our products and services enhance the efficiency and longevity of your industrial systems. At Heat Processor Industrial Services, we combine advanced technology with exceptional customer service to drive your success.

MISSION

Our mission at Heat Processor Industrial Services is to deliver superior thermal management solutions that exceed our customers' expectations. We strive to innovate continuously, ensuring our products are at the forefront of technology, efficiency, and reliability. Through dedicated service and a commitment to quality, we aim to enhance the performance and sustainability of industrial operations worldwide.

VISION

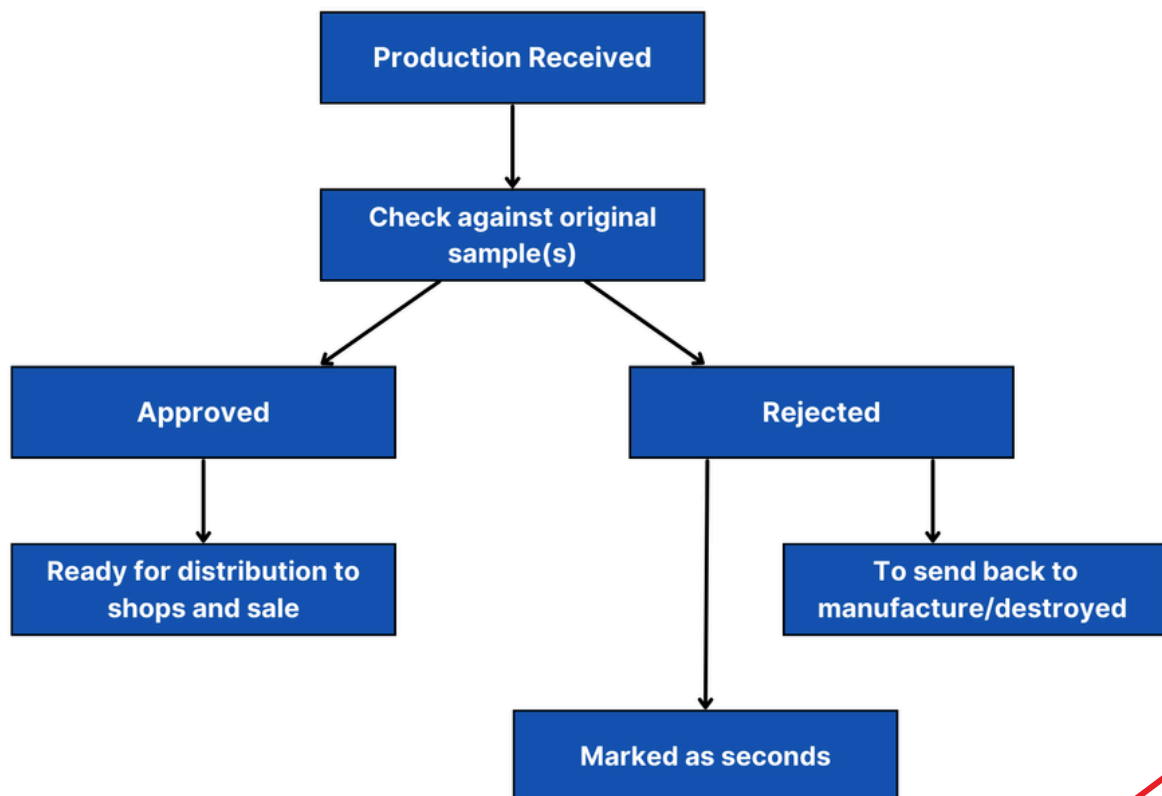

Our vision is to be the global leader in industrial thermal management solutions. We envision a future where our cutting-edge products and services set the industry standard for efficiency, reliability, and environmental sustainability. By fostering a culture of innovation and excellence, we aspire to create lasting value for our customers, employees, and stakeholders, contributing to a more sustainable and prosperous world.

QUALITY AND CONTROL AT EVERY LEVEL

At Heat Pro quality is not a norm but a habit. At regular intervals we keep updating our unit with the most advanced techniques, to deliver the best to our customers. Our quality assurance department follows an exhaustive checklist. Our quality system processes are in place to ensure consistent quality.

Today, we earn the reputation for quality, reliability, and complete flexibility to manufacture radiators and associated products and services matching complete customer specifications and satisfaction.

QUALITY AND CONTROL AT EVERY LEVEL

DELIVERING YOUR WISH LIST

Backed up by the level of service and supplies support you need, these service solutions work together to give you a complete solution ensuring extra peace of mind in a busy, fast-moving environment.

We work hard to take you forward, but never at the expense of usability or efficiency. Leading the way is what we do best, and here are just some examples that stand out:

| | |
|---|--|
| Industrial Radiator Repair | No matter how big, can handle any industrial radiator application. |
| Heat Exchanger Service | Capable of servicing multiple types of heat exchangers. |
| Industrial Oil Coolers | Not only service oil coolers but also build new coolers. |
| Shell & Tube Bundles | Capable of cleaning, testing, and retubing any size or application with any type of tubing. |
| U-Bend Bundles | Like shell & tube bundles but with U-Bends on one end. We can service, clean, repair, or re-tube them. |
| On-Site Gen-Set Repair & Re-Core | Repair or re-core your generator radiator ON SITE! |
| Custom Built Heat Exchangers | Building of customized multiple types of heat exchangers to your specifications. |
| Charge Air Cooler Repair | Set up to repair and re-core charge-air coolers. |
| Pick-Up & Delivery Service | Offer pick-up & delivery service to our industrial customers |
| Fuel Tank Repair | Repairing of diesel fuel tanks at our facility. |
| Caterpillar Tank Re-Building | Re-building the rusted and pitted tanks on Caterpillar folded core radiators. |

LET US SHOW YOU WHAT DIFFERENCE WE CAN MAKE

TOTAL SOLUTIONS FROM BEGINNING TO END

We give you total servicing solutions that work at every level for industrial radiators or coolers and heat exchangers or transfer devices.

We frequently service **INDUSTRIAL EQUIPMENT RADIATORS** (Caterpillar, Komatsu, Hyundai, Doosan, Liebherr, Grove, Link-Belt, Manitowoc, John Deere, CASE, Miller etc.), **GENERATOR SET RADIATORS, TRACTOR-TRAILER RADIATORS** (Peterbilt, Kenworth, IVECO, Mercedes, International, Mack, Volvo, Freightliner, Scania, Renault & Western Star).

We have the capability to pick up and deliver to our industrial customers no matter how **BIG or SMALL**.

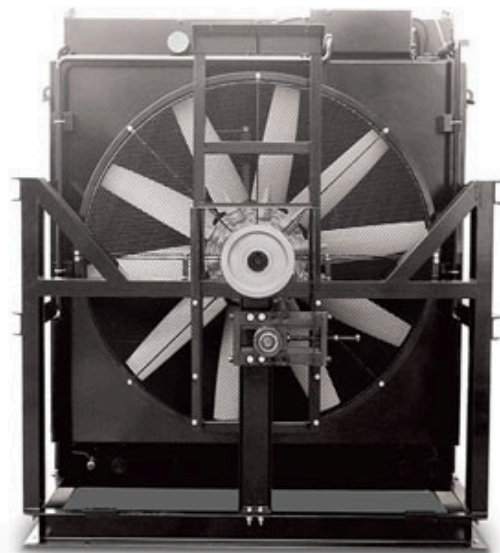

INDUSTRIAL RADIATORS

Heat Pro offers a range of high-quality radiator solutions for industries such as Oil & Gas, Construction, Power rental, Petrochemical, Agriculture, Mining, and more.

We focus on Quality, Reliability, and Performance.

Heat Pro delivers reliable cooling solutions that meet the needs of its customers.

We offer REPAIRING, OVERHAULING, RECORING, and FABRICATION for a wide range of Copper and Aluminum radiators for Vehicles, Trucks, Generators, and Heavy machines.

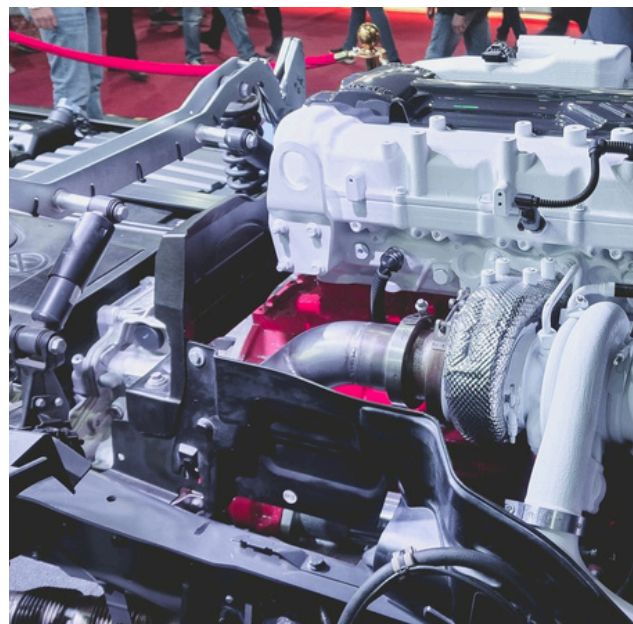

DIESEL ENGINES AND GENERATORS

Proper scheduled service and maintenance of diesel generators is key to power reliability.

We offer routine maintenance services to ensure your generator operates at peak performance, reducing the risk of breakdowns. Our specialized team is well-equipped to handle industrial generator repairs with precision and expertise.

We can handle Gensets ranging from 10KVA to 2000KVA and we deal in brands such as CAT, PERKINS, CUMMINS, DOOSAN and others.

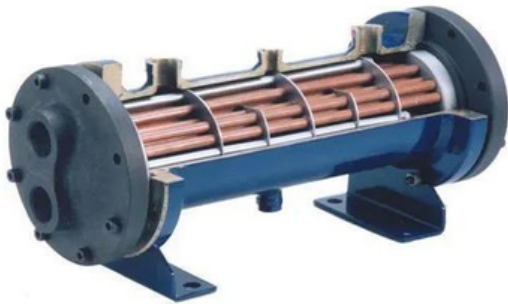

COOLERS & HEAT EXCHANGERS

At Heat Processor Industrial Services, we specialize in repairing and overhauling industrial coolers, including oil, air, hydraulic, and aluminum coolers. We also handle Shell & Tube and Plate Type Heat Exchangers.

Our skilled technicians use advanced tools to ensure peak efficiency, providing thorough inspections, diagnostics, cleaning, and component replacements. Our services minimize downtime and maximize productivity, ensuring smooth operations. Trust Heat Processor Industrial Services for reliable, high-quality thermal management equipment repairs.
